Igor Škrjanc, Ph.D.

Faculty of Electrical and Computer Engineering
University of Ljubljana, Slovenia

Igor Škrjanc (M'10) received B.S., M.S. and Ph.D. degrees in electrical engineering, in 1988, 1991 and 1996, respectively, at the Faculty of Electrical and Computer Engineering, University of Ljubljana, Slovenia. He is currently a Full Professor with the same faculty. His main research areas are adaptive, predictive, neuro-fuzzy and fuzzy adaptive control systems. His current research interests include also the field of autonomous mobile systems in sense of localization, direct visual control and trajectory tracking control. He has published over 60 papers with SCI factor, he co-author of 8 chapters in international books and co-author of scientific monograph published by *Springer*. In 2008 he received the most important Slovenian research award for his work in the area of computational intelligence in control – *Zois award*. In 1988 he received the award for the best diploma work in the field of Automation, Bedjanič award, in 2007 the award of Faculty of Electrical Engineering, University of Ljubljana, Vodovnik award, for outstanding research results in the field of intelligent control, in 2012 1st place: Competition on Learning from the data organized by FUZZ-IEEE Society in the frame of IEEE World Congress on Computational Intelligence 2012, Brisbane, Avstralija: Solving the sales prediction problem with fuzzy evolving methods, and in 2013 the best paper award at IEEE International Conference on Cybernetics in Lausanne, Switzerland. In year 2009 he received a *Humboldt research award* for research at University of Siegen. He is also a member of *IEEE CIS Standards Committee* and *Slovenian Modelling and Simulation society*. He also serves as an Associated Editor for *IEEE Transaction on Neural Networks and Learning System*, *IEEE Transaction on Fuzzy Systems* and *the Evolving Systems* journal.
